OUR VOICE

MONTHLY NEWSLETTER - MAY 2020

PRINCIPAL'S MESSAGE

Dear Parents,

The biggest inspiration for early years educators are children!

With limited access to our little ones, it was indeed a tough time to be able to come up with something interesting for the newsletter this month....

Their smiles always bring in loads of sunshine and their gloom pinches our consciousness; their hurried feet signal a purpose to move and their stillness give us a moment to reflect; their unending giggles hide many a secrets and their silence leads to many a question; their questions give us food for thought and their answers fill us with awe. To keep it short, our little ones are an answer that fills in every blank and gives us every reason to thank!

We wish everyone a safe stay at home and look forward to being with our little ones in person as soon as it is safe for all. Till then, we will continue to meet in the virtual world and enjoy the new normal!

Looking ahead...

With best regards,

Rashmi Nagendra

EDITOR'S NOTE

Hello everyone!

Already zoomed into our second month of e-learning, the 'Merciful May' and if we reflect back on the past months, it's only been 'Mayful'....the may be not's turned into maybe yes!

We are grateful and appreciative of the little and significant blessings in our lives.....to begin with our parents for being their child's first teacher and for our teachers to be their student's first guide and mentor!

Loads of enriching and knowledgeable activities took place the whole month.....interesting focused and group learning sessions.....a special virtual workshop to make our little ones aware of cyber safety....fun filled celebrations of Mother's Day.....Fun Day.....and lots more in the month of May!

From where we started until now, we feel truly happy to witness the immense growth and progress in our little ones. You make us proud!

More Learning.....Happy Reading.....until next month!

Stay Safe.....Stay Healthy!

Ms. Deisha Dass

WOW MOMENT

Online learning was once an infrequent activity but in these times of crisis, it is a savior for those who are committed to spread and gain knowledge. It has now become a part of our daily routine.

Each day brings new lessons for us as well as our children. Students have adapted well to this new learning medium. Watching these little preschoolers engage in virtual classes is overwhelming. Taking turns, raising hands to gain attention and following instructions through a gadget is simply amazing. They operate the unmute and mute buttons too, so well! They find happiness in little things like songs and online games. I love their innocence and joy about the smallest and seemingly insignificant things. They wait eagerly to do warm up exercises like brain gym or singing the goodbye song. Topics like Habitat, food chain, activities of creating models of different habitats as well as explaining facts and adaptations through distance learning seemed very challenging, but, were taken forward very well by our little ones. I am amazed at the progress children have made via virtual classes. The best part of my job is the satisfaction I gain from seeing the glow in my children's eyes as they begin to learn new things, especially learning to read. I also love listening to the things children at this age come up with. It gives me immense joy to have the opportunity of interacting with five to six year olds who are eagerly waiting to experience all that I can share with them.

Ms. Mamta Agrawal

A WOW moment is a BIG impact in a small gesture. Simple things we do for people or they do for us which lasts life-long. All teachers would have had those "moments" of course! Moments which fill our heart with happiness of being present in a child's life.

WOW....."Wonders of Online Working"

How beautifully our Children, teachers and parents have adapted to the new scenario of online teaching and learning. It is amazing to see children grasping the things so fast, preparing themselves that now no more school bags, no uniforms, no tiffin boxes and no school buses, now their learning is through computers, laptop and tablets. Within a week's time children could manage the laptop independently, like they were able to mute and unmute the microphone, manage the basic technicalities, etc. How well they understood that once they finish speaking they have to give chance to their fellow mates. It's astonishing to see children exploring the technology and how they can use different modes to correspond with the teacher. These are the unlimited WOW moments.

It's amazing that teachers have adapted to the new online teaching with positivity and smile. How well and quick all the teachers have trained their mind set from classroom learning to remote learning. They are managing to balance their home work and school work. So well are they managing their children and their students. Tremendous patience shown by teachers is commendable. WOW! it's indeed great to be a teacher.

Ms. Shubha Deshpande

Pre KG

In Literacy, the stories of 'The Owl babies' and 'The little Red Riding Hood' did the rounds to engage our little ones with enhanced vocabulary, understanding of situations and communication!

Math was all about learning Shapes and gaining a sense of Numbers...1,2,3,4!

'Our Senses' was the main topic in the Understanding of the world! Have taken a closer look at the different senses such as Sight by making their own binoculars and playing the blindfold game while Hearing was focused through the melodious homemade water xylophone.

Little Red Riding Hood

The Owl's babies

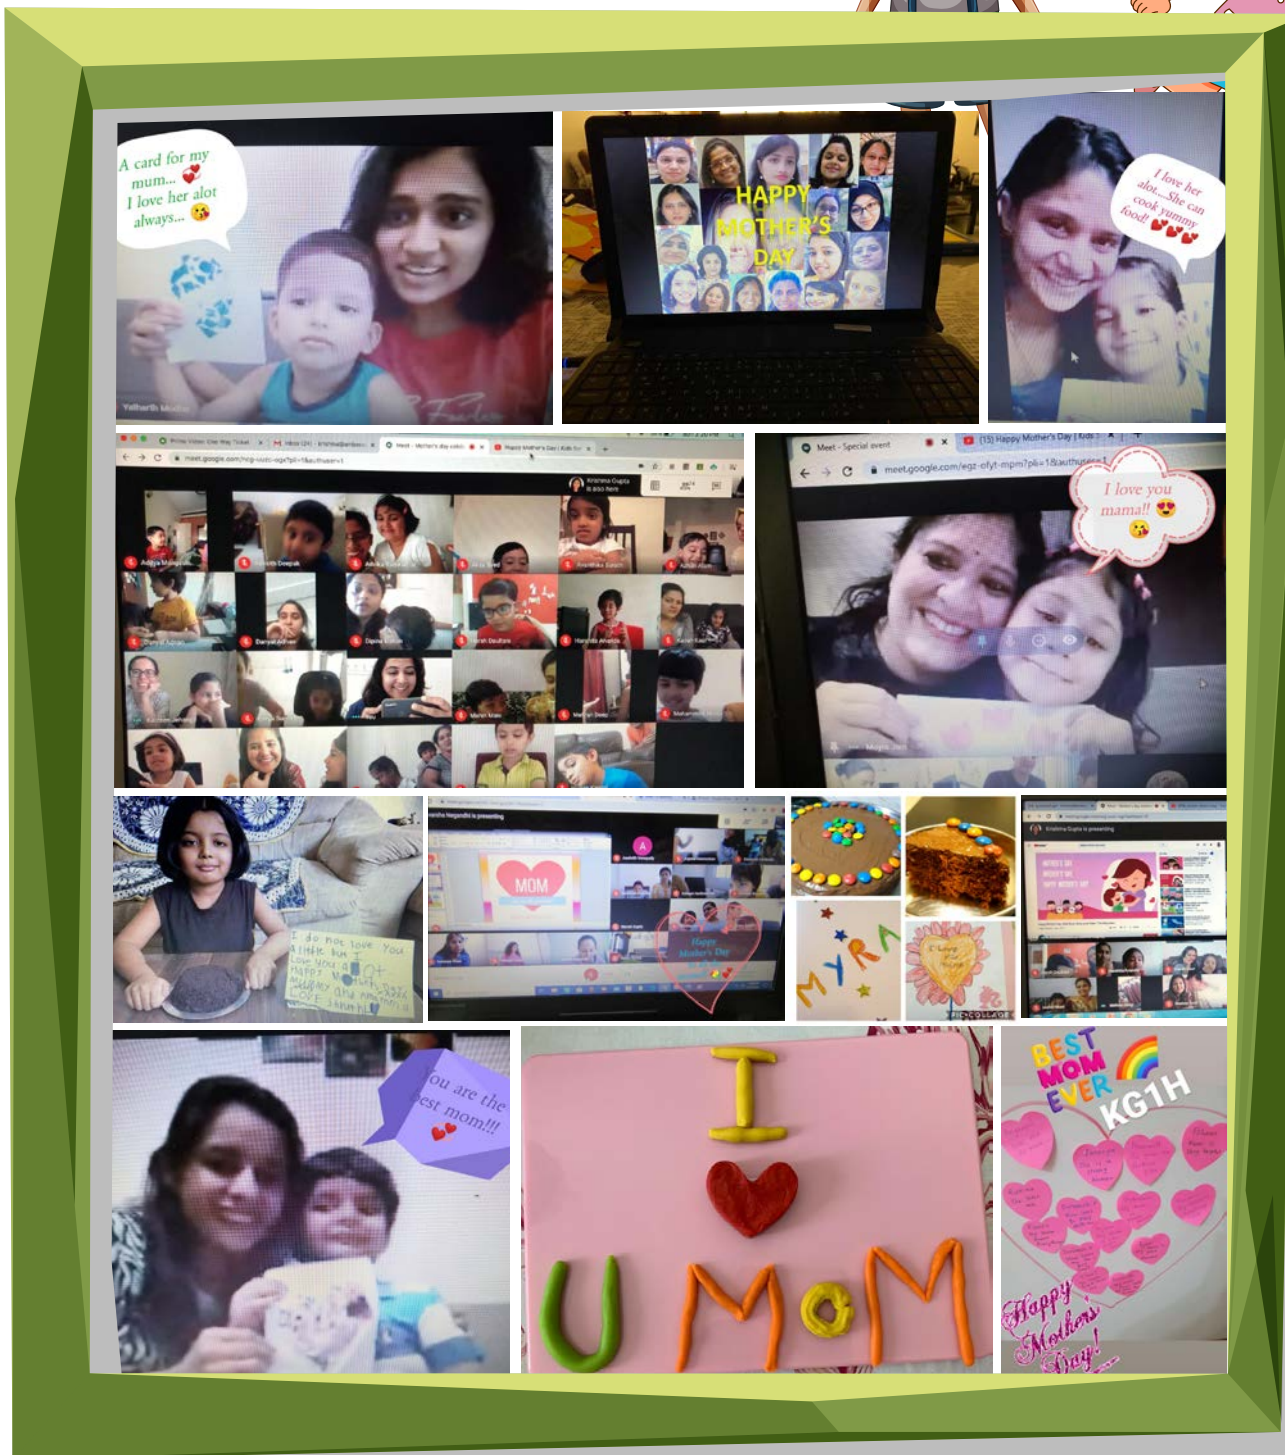

Math

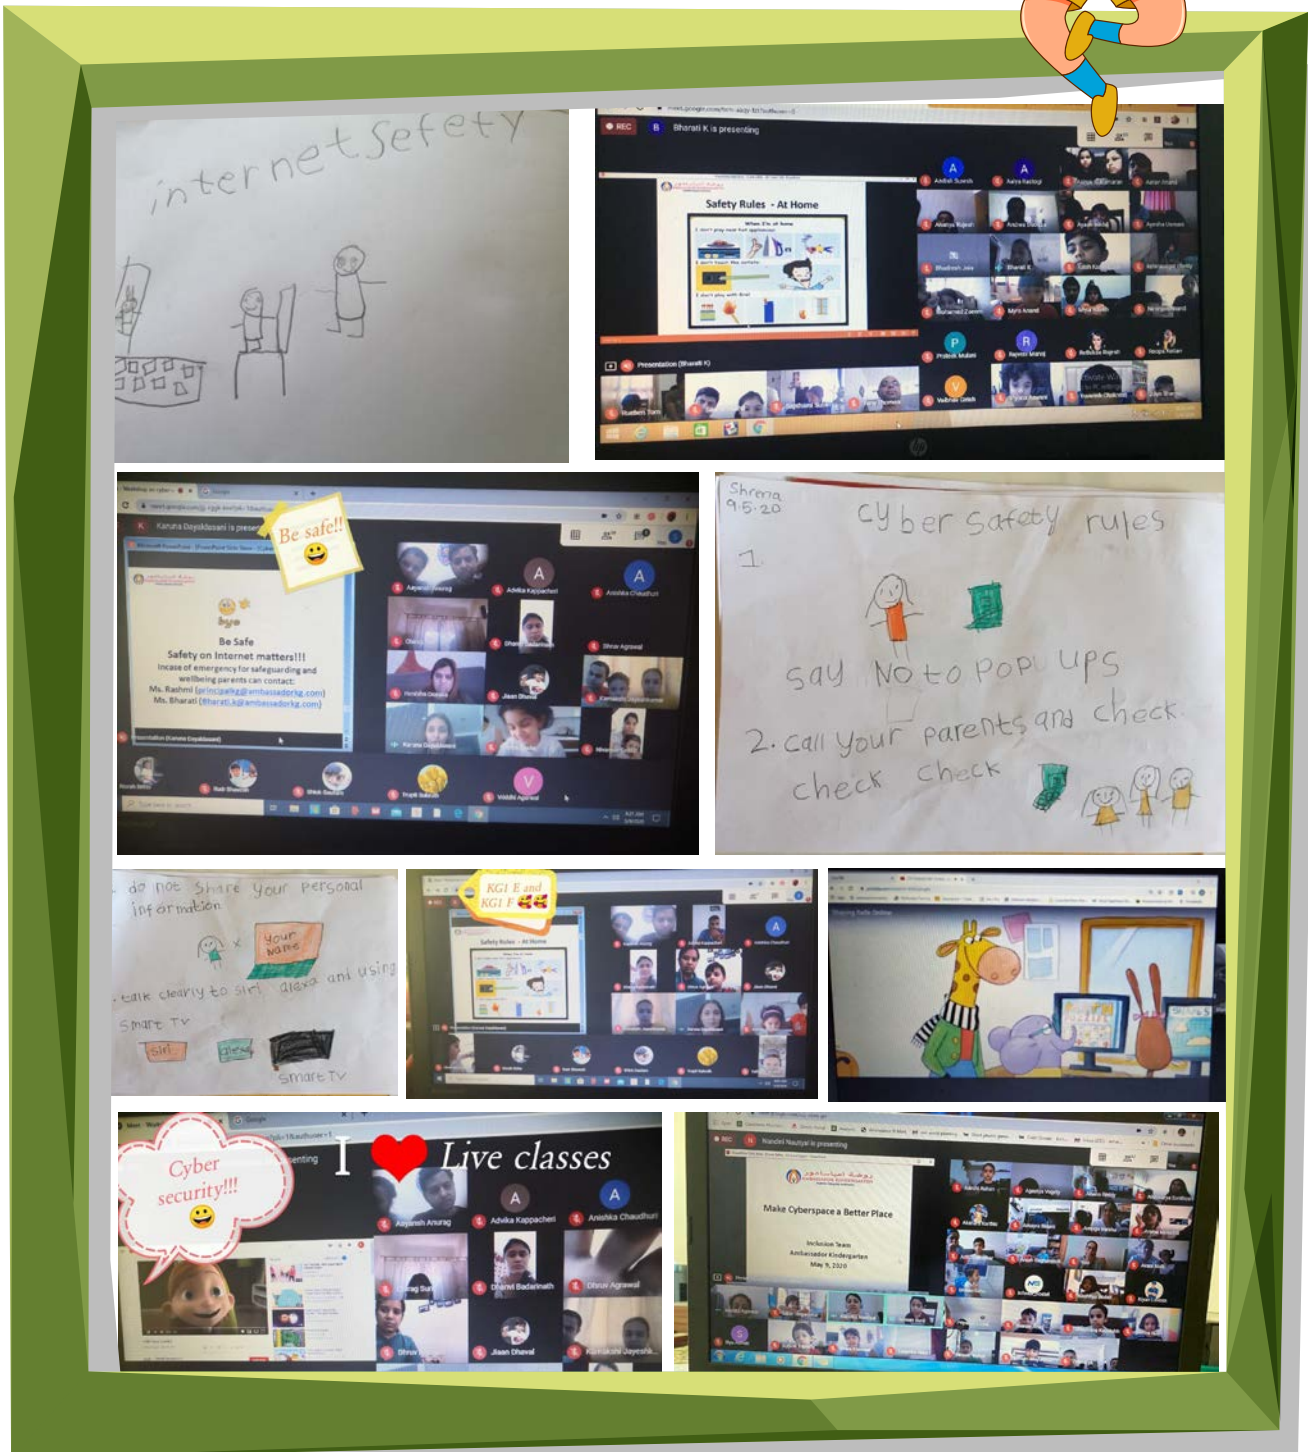

Mother's day

Mother's day was celebrated with great warmth, affection and hugs across the Kindergarten through student's handmade cards for their dearest mums, games, dances and activities!

Cyber Safety Session

Cyber Safety session to inform and teach our little students to identify the 'right' and 'wrong' associated with internet browsing.

KG 1

1) Literacy had their activities galore!

- Introduction to new phonic sounds, alliteration, sight words and the CVC words
- To understand plants in a better way, Mark making of the story 'I am a seed'. Vocabulary building and language development through the poem 'Five little seeds'
- This month was an emphasis on the significance of our individuality and the special name that we all have! Various ways of presenting our names was a part of the lessons!

2) Fun with Math!

Math was bubbling with Number sense, Before and After numbers using a Number Line!

3) Understanding of the world!

Plants, parts of the plants and their functions

Alliterations, CVC words

Five little seeds, I am a seed

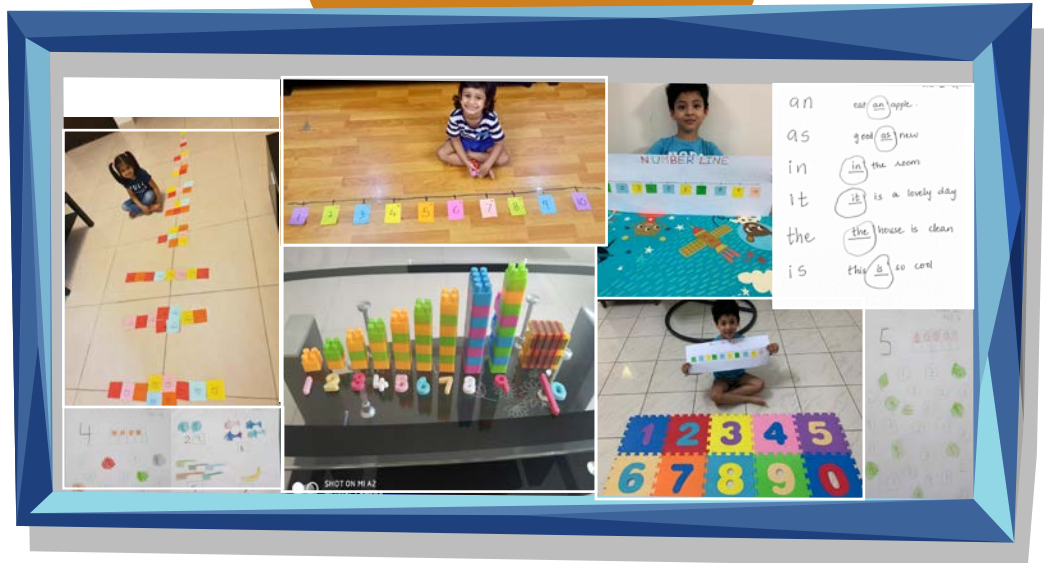

Everybody has a name

1. The best parts of my day is when i wake up and sleep on my mom's lap.
 2. The best part of my day is when i learn new things from my teacher, play with my class friends and watch videos in my i-pad.
 3. Sometimes my best part of the day is watching movie with my elder brother and share 1 pack of pop corn.
 4. Nowdays my best part of the day is when i play with hoola hoop, yo-yo and play dough 😊

HOW TO MAKE A 'ROBOT'

1. Collect empty cardboard boxes.
2. Take a square box for head and fix 2 bottle caps as eyes, paper glass as nose and comb as teeth.
3. Take 1 big box as body and four rectangle boxes to fix as legs and arms.
4. Use two paper cups for ears.
5. Now we can paint our ROBOT.....!!!

 If I had to live with a bear in a cave
 for a day ...

I will play with the bear in
 the cave.
 I would give lots of nuts and
 berries to the bear.

I will have lots of fun fishing
 and swimming with the bear.

After coming back to the den, we
 will bounce and dance.

I will ask the bear what is his
 favorite game.

I will invite him to my house.
 Shawn Stephen. KG2G

Date _____ No. _____
Today I had the best birthday ever. My class friends surprised me in the online class by singing a song and making birthday cards for me.

We are only five in the class, but this time there were so many I could not count. I was so happy that I felt like dancing. Thankyou friends. You made my day.

Mother's Day
It was another new day on
May 10 2020. Mummy got up
and made yummy food for me.
I got up and wished her a Happy
Mother's day. My teacher helped
me to bake a cake and we played
games online. My mummy loved
the cake. I love my mummy.

Social Studies

To know all about the UAE flag and its significance! We love UAE!

RED	Stands for Bravery
GREEN	Stands for Love
WHITE	Stands for Peace
BLACK	Stands for Strength

16-05-2020 Jaffar

SST Activity 2

Objective: Learners will identify, know and understand the significance of each colour of the UAE flag.

Activity: Learners will understand the significance of each colour of the UAE flag. They will colour the UAE flag and write the significance of each colour.

Significance of the colours

Uae Flag

Red	bravery
green	Love
White	Peace
black	Strength

Fun day

To bring in some change and a respite from the regular learning, an assortment of activities for different grades were planned such as..... Scavenger hunt, Dress up, Tape Shape game, Simon says, Birdie dance, Gummy Bear dance, Obstacle races, Bingo, Spin the wheel and Follow the leader were laid out for our little ones on the Fun Day!

A memorable day full of fun and enjoyment!
