January 2018

“Only children believe they’re capable of everything”

-Paulo Coelho

عام  
زاييد

YEAR OF  
**ZAYED**

**From the Principal's desk**

**Let me begin by wishing each of you a successful year of 2018!! We are extremely delighted to have our adorable children, geared up and excited, back at our campus after a refreshing winter break!**

**As we step into 2018- the Year of Zayed, the year that marks 100 years since the birth of the founding father of the UAE, H.H. Shaikh Zayed Bin Sultan Al Nahyan, the leader who took the country to great heights of success and prosperity, let us celebrate to spread his inspirational and noble values of goodness, wisdom, humanity, charity and the determination for spectacular achievements to our children while we continue the human and cultural legacy of the UAE.**

**H.H.Shaikh Zayed has instilled the willpower and determination to challenge and achieve the impossible that shall convince us that we are capable of being pioneers and be one of the best in whatever we do. His real wealth was not in materialism, but the welfare of his men and women who build the future of their nation, following in his footsteps, WE are determined to empower our children for a progressive and a sustainable future for years to come.**

**The late H.H Shaikh Zayed bin Sultan al Nahyan(May God rest his soul in peace) , We salute and respect you!!**

**Editor's Note....**

**A new year...a new beginning!! Well, it may be the onset of yet another calendar year, the clichéd New Year, for us each day is a New day with the**

## **reNEWed**

**determination, vigour, enthusiasm and charged up spirit around the year to achieve what we are set for and much more!!**

**The New Year's first edition brings us pride in having our Kindergarten children capable of reading a story for their peers in their own creative ways; while our kindergartener 2's had a time of their life at their own evening camp at school; the newspaper campaign which made a difference to each of us; while our teachers sharing their Wow Moments when at school.**

**Keep following.....Keep Reading!!!**

**This is what  
keeps us  
going....**

**Ms. Varsha**

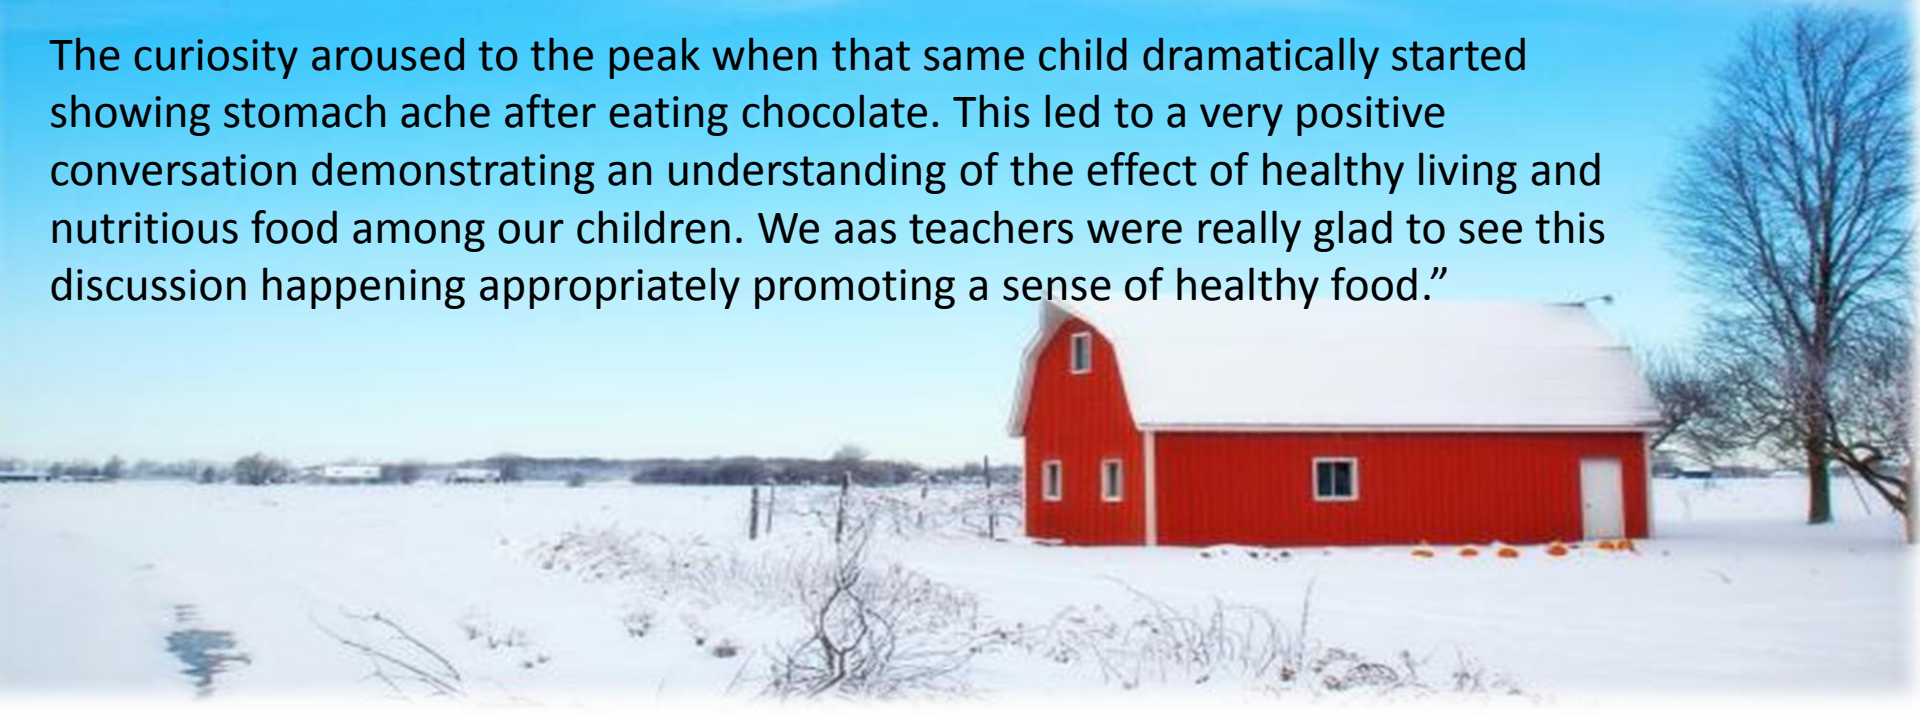

**Ms. Shama**

“It was indeed a wow moment for us as teachers when one of the child brought his tiffin box saying “Ma’am see my Mumma gave me junk food”. He was actually pointing at the chocolate that was in his tiffin, this caught the attention of other children and they also began to check their tiffin boxes.

The curiosity aroused to the peak when that same child dramatically started showing stomach ache after eating chocolate. This led to a very positive conversation demonstrating an understanding of the effect of healthy living and nutritious food among our children. We as teachers were really glad to see this discussion happening appropriately promoting a sense of healthy food.”

# My Favourite Animal

**Nursery children were very happy as they came dressed as their favourite animal and had a chance to show it to everyone through a parade done in the schools premises.**

**Little Ones of Nursery 1 were so enthusiastic while singing “Old Mc Donald”!!**

**Explore and Roar!  
Pretend and Play! We are  
having so much fun  
today!**

It was another amazing experience for our Nursery children to learn new and interesting topic such as animals. They've learnt the importance of taking care of animals and what animals need to survive. Each child was also given a chance to share their ideas about their chosen animal character. To sum it all, it was indeed a great day. We thank all the parents for their unending support to all school's events.

# Theme of the month:

**KG1:**

**KG2:**

A night scene featuring a starry sky with a green aurora borealis on the left. In the foreground, five teepees are lit up from within, casting a warm orange glow. The ground is covered in snow, and a line of dark evergreen trees is visible in the background.

# KG2 Camp

**After all, one always needs a day off from routines and monotony!! This was the day – the Evening Camp ‘At Twilight Together’ at AKG for our KG2 children who mingled and enjoyed with friends and teachers participating in various activities such as the Maze, the Animal Safari, the Treasure Hunt, Dance, face painting, playing with bubbles, Story time and lots more!!**

**The day was full of fun, laughter, excitement, friendship and memories!!!!**

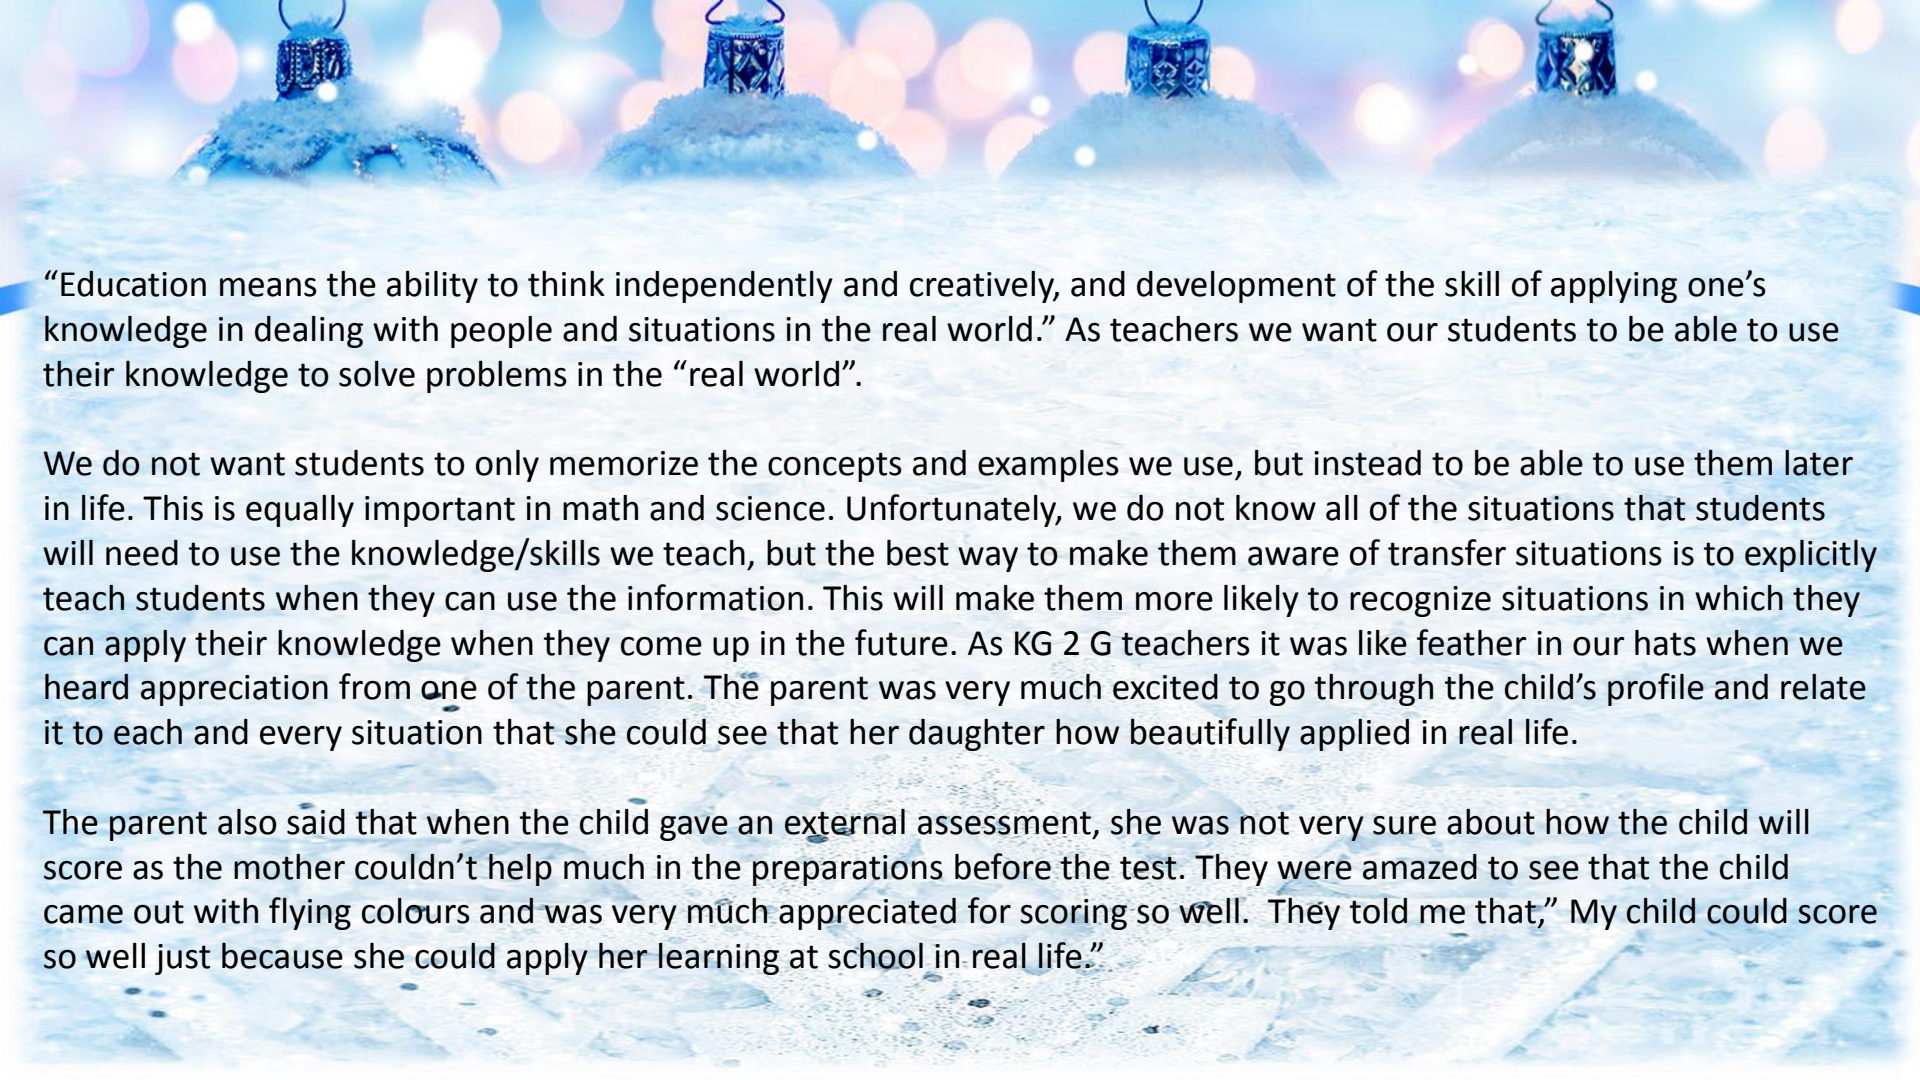

This is what  
keeps us  
going....

**Ms.Roopa**

**Ms.Mithila**

“Education means the ability to think independently and creatively, and development of the skill of applying one’s knowledge in dealing with people and situations in the real world.” As teachers we want our students to be able to use their knowledge to solve problems in the “real world”.

We do not want students to only memorize the concepts and examples we use, but instead to be able to use them later in life. This is equally important in math and science. Unfortunately, we do not know all of the situations that students will need to use the knowledge/skills we teach, but the best way to make them aware of transfer situations is to explicitly teach students when they can use the information. This will make them more likely to recognize situations in which they can apply their knowledge when they come up in the future. As KG 2 G teachers it was like feather in our hats when we heard appreciation from one of the parent. The parent was very much excited to go through the child’s profile and relate it to each and every situation that she could see that her daughter how beautifully applied in real life.

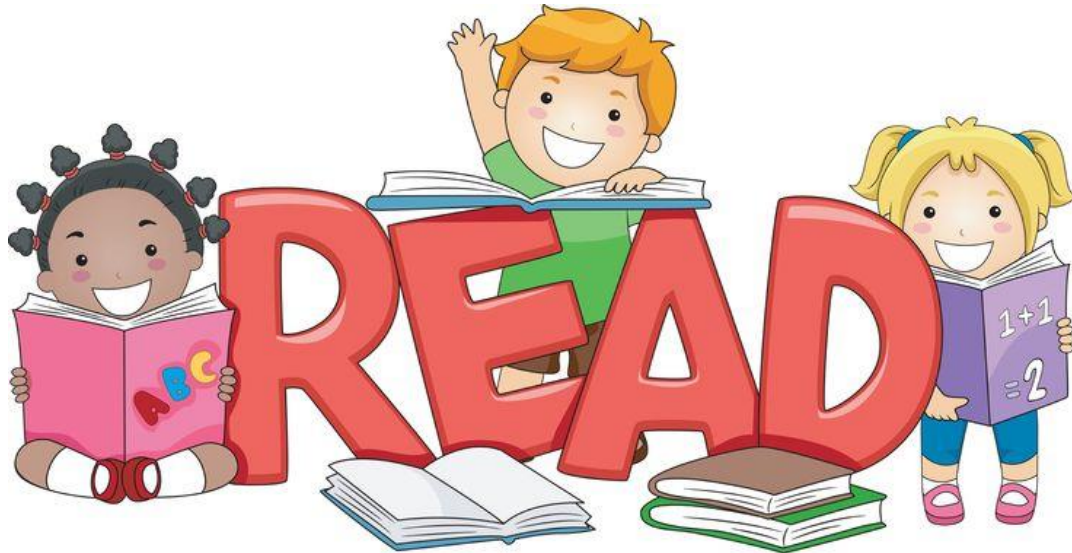

The parent also said that when the child gave an external assessment, she was not very sure about how the child will score as the mother couldn’t help much in the preparations before the test. They were amazed to see that the child came out with flying colours and was very much appreciated for scoring so well. They told me that, “My child could score so well just because she could apply her learning at school in real life.”

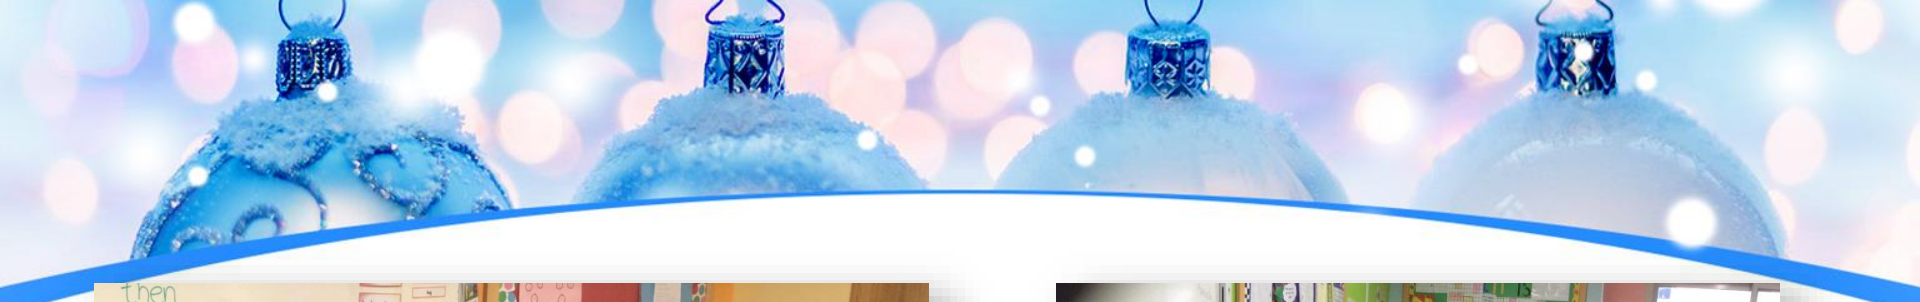

**Reading Day**

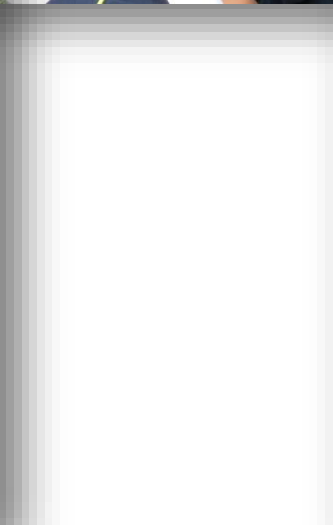

Reading and sharing stories with children opens up a whole new world of imagination for them. It is one of the most exciting and fun ways to learn. What better way for the little ones to learn than with their friends? So this month's reading day involved children from each class going to neighboring classes and showing off their newly acquired skill of learning.

# Newspaper campaign

In the UAE, the average household throws away 13,000 separate pieces of paper each year. It takes 24 trees to make 1 ton of newspaper. Rainforests are being cut down at the rate of 100 acres per minute..... Our Kindergarteners are aware of all this and more...

At Ambassador KG we take steps to encourage waste management and to create an alternative solution that will allow us to turn waste into a valuable resource. Yes Newspaper it is...For this newspaper campaign our parents joined hands in promoting this initiative. They showcased their creativity by making paper bags, paper Mache, gift wrapping, dress making... just to name a few.

We are reusing newspaper...Are You?

# KG 2 Transition

# Phase 1 - Ice Breaker

**Ambassador school teachers visiting our KG 2 classrooms to make a connection with our grown up KG 2's through story telling and interactive games.**

# Phase 2 - Visit to the campus

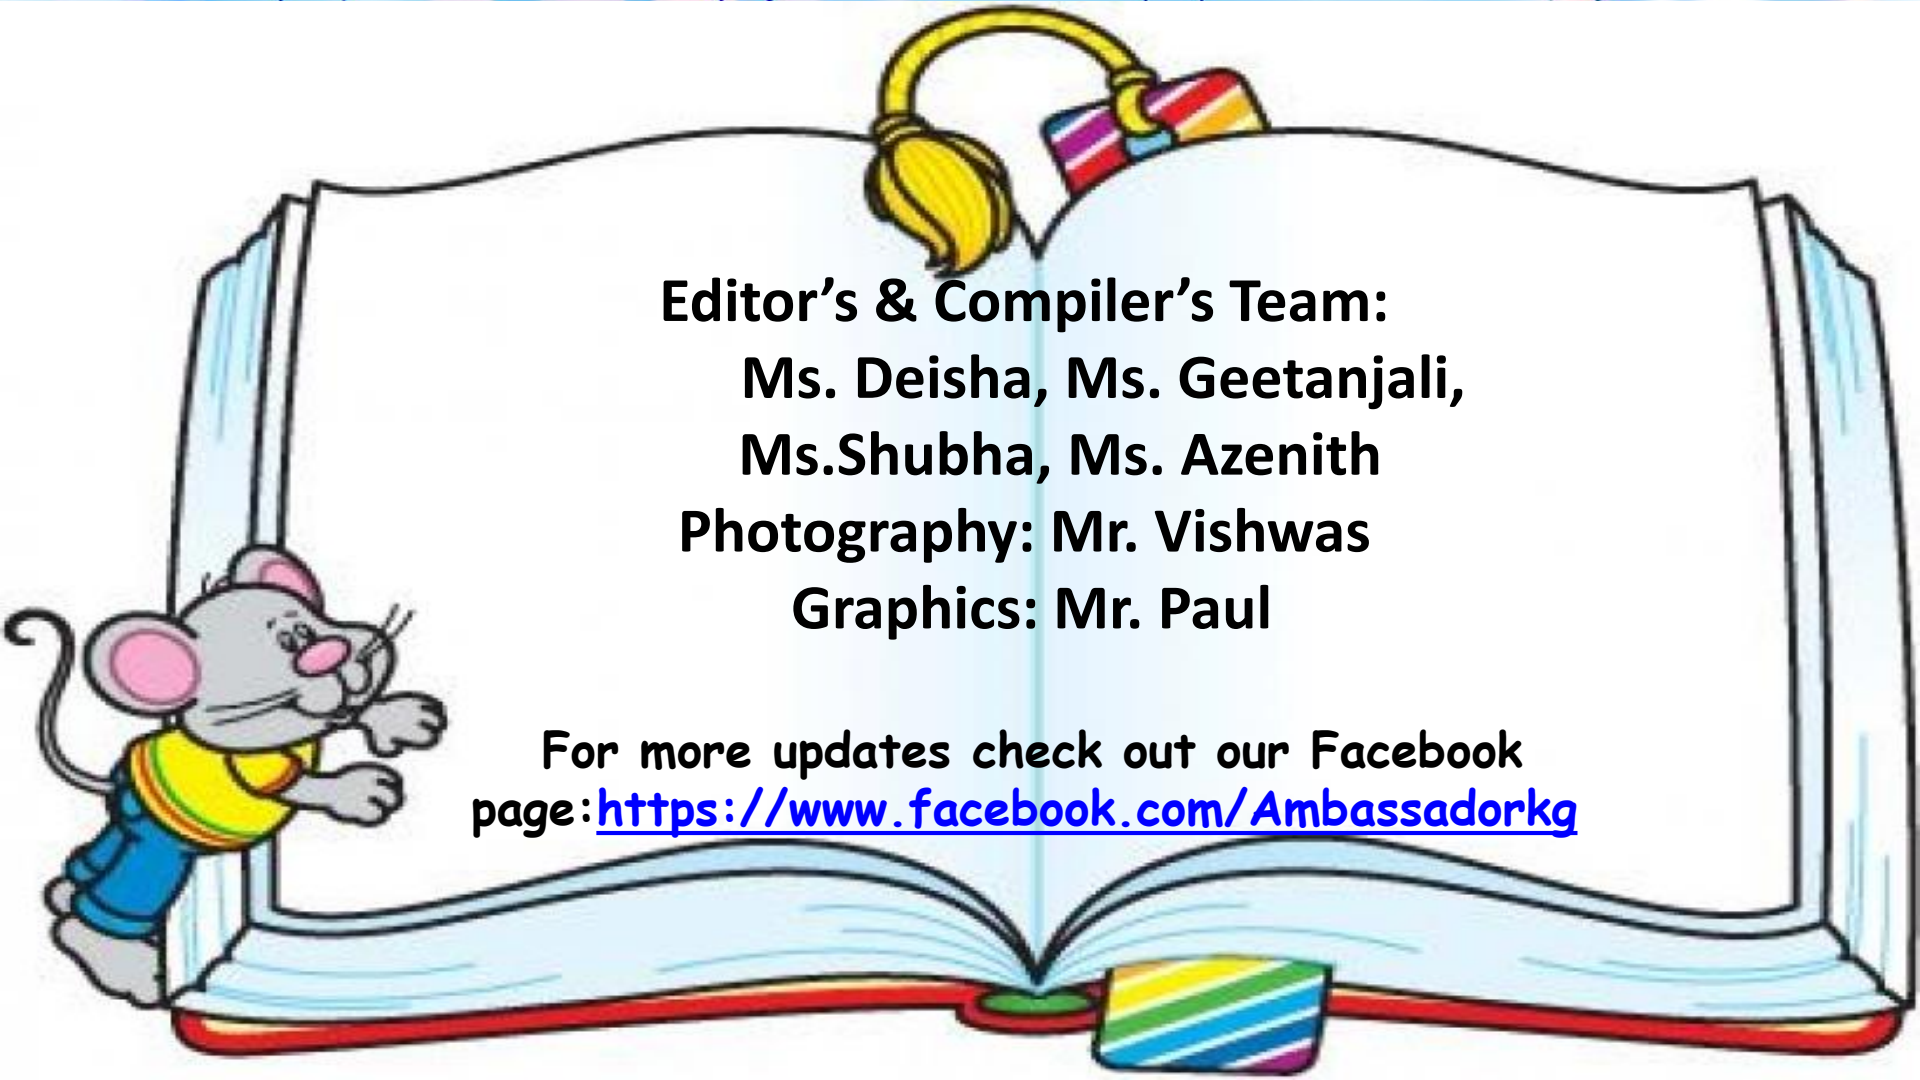

See You Next Month!
