

PRINCIPAL'S MESSAGE

Dear Parents,

Ever since we started the term, it has been celebrations galore! We began with Eid celebrations before we reopened, continued with Diwali and will be looking forward to Christmas very shortly.

Festivities are all about coming together as a family and spreading the light of happiness and joy around us. It is that time of the year when traditional recipes see the daylight and everything around us exudes the culture we grew up in. It is literally re-creating our childhood with a touch of modernism to suit the needs of our children and the environment that we are in. Being far away from home, may have its own shortcomings – that of being away from our immediate family members. But, the beautiful bonds that we develop with our friends around us, certainly gives you the much needed warmth of your extended family. And Dubai never disappoints you when it comes to opening its doors and respecting the diverse cultural practices of the different nationalities residing here. It is one place which is most definitely ‘A home away from home’.

Wishing you a great season of giving and a beautiful time with your family!

Looking ahead...

With best regards,

Rashmi Nagendra

Principal, Ambassador Kindergarten

EDITOR'S NOTE

A healthy mind leads to a healthy life! With a packed up 24/7 lifestyle, a mechanical routine and adulteration in the air topping up the environmental charts, it is now time to think and reconsider some changes for a better and a happy life! To bring in the message home, a special assembly was organized by the Health club focusing on the important factors of healthy living. While our little members of Holding Hands project fell awe struck with the courage and determination of Ms. Shobhika Kalra to fight the physical challenges and come out a winner! They have grouped up to survey possible modifications to help and ease accessibility for different challenges all around our school! Besides, October has shaped up to be a busy one with a plethora of happenings such as 'Sing Alongs', 'Read Alouds' and field trips at Ambassador, exciting Halloween celebrations while Diwali Dhamaka being the cherry on the topping!

The time of learning is now and forever!!

Until next month....Happy Reading!!!!

- Ms. Deisha Dass

WOW MOMENT

Sometimes children really amaze us by their creativity. As ‘Animal homes’ was the topic going on, the children on the creative table were making animal home with available resources. I was amazed to hear the conversation of my little ones, such as: “How we can make the roof?” “Hey, let’s go and find something!” They got wooden tray, popsicles stick and toy horse and made a horse stable. Apart from the resources provided, they went around the class and found some more resources suitable to make a stable. The promptness, the creativity and their imagination was really a Wow moment for me!

Ms. Varsha Khatri

Ms. Sangeetha Saptharishi

“In school, every day is a treat to see our little ones growing and to be a witness to their Wow moments. The moment of happiness which we enjoy take us by surprise. It is not that we seize them but they seize us. It is our great privilege to share some WOW moments with you all.

The topic was “Hazza Al Mansouri.” We had some wow moments that made us speechless. Our little intelligent dynamos spoke about space, gravity, rocket, astronaut and Earth. At such a tender age they gave us magical answers like... during a rocket launch the countdown is backwards. Together they chanted 10, 9 ,8 in class. They also spoke about Hazza Al Mansouri’s space outfit. They noticed the familiar UAE flag on his sleeve. They spoke about gravity, extra-terrestrials, aliens and weightlessness! It was a proud moment for them when they saw Sheikh Mohammed speaking with Hazza in space. It sparked their imagination and most of them wanted to become astronauts.”

HOLDING HANDS - SURVEY FOR DEAF AND MUTE

21-10-19 Holding Hands Club for
Deaf and mute

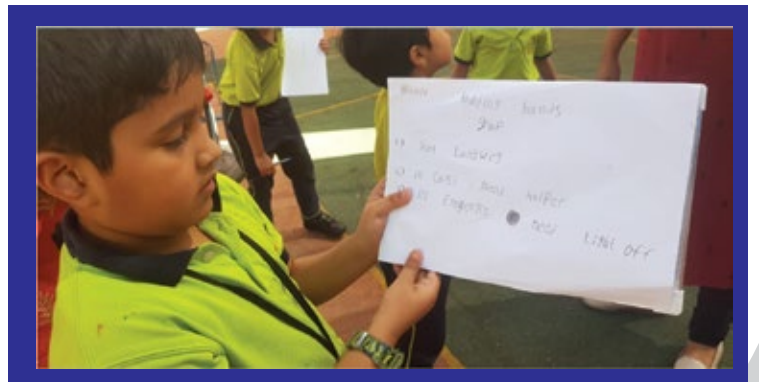

ASL (American Sign Language)

We did a survey in our
School to check what Deaf
and mute children will face.
So we will learn
Sign Language to help them
understand.

HOLDING HANDS - SURVEY FOR VISUALLY CHALLENGED

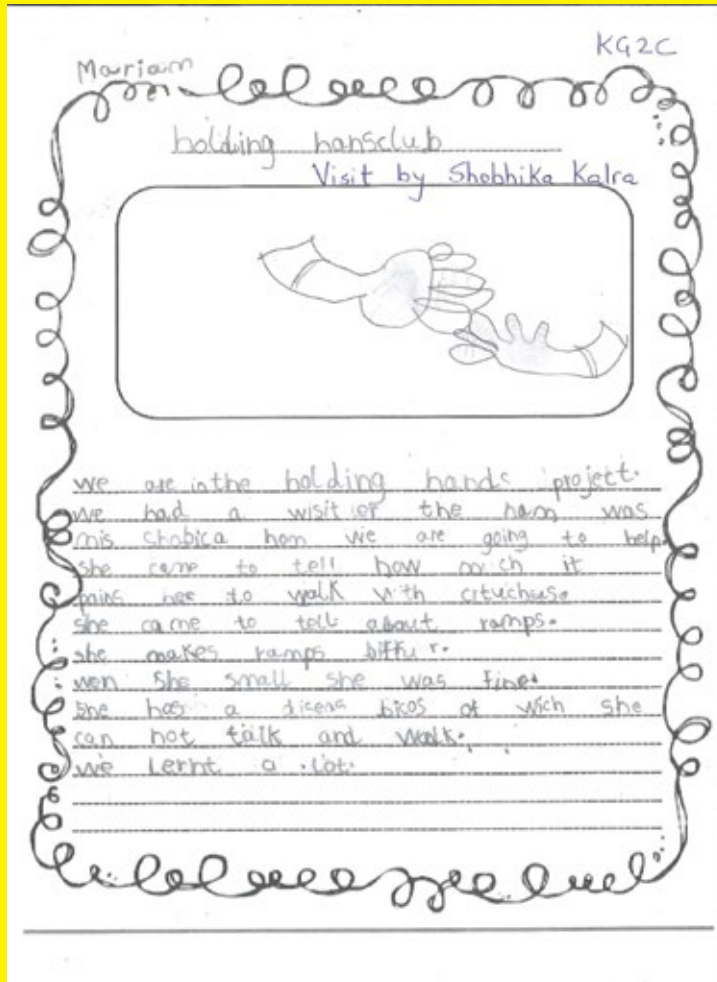

Holding Hands

Aadya KG 2D 29.6.19
 visually challenged
 we did a surch of the school
 We started with the resepsin.
 We want a stomatic door. There
 should be a budy and brail for
 the visually challenged in the
 play area and class room. To
 play in the mase we must
 have speaker. In the classroom
 aunty will help to go to the
 toilet. In the bus aunty must
 help and child can sit in the
 front.

Aadya (KG 2 D)

HOLDING HANDS - SURVEY FOR PHYSICALLY CHALLENGED

Shlok KG 2 B
Holding Hands (Survey)
Physically challenged children survey

We went around the
school and seen
how the physically
challenged children
will play and
work and swim

in our school. We also went
to Resepshan to check how
will they enter in the school.

JUST JAZZLE (PRE KG)

READ ALOUD (KG 2)

I went for read aloud in
kg2b. I read 'I am sick'. Sand
also read with me. It was a
great fun. All children were
listening nicely. We all enjoyed
read aloud. I loved it.

Vivaan (KG 2 C)

Shlok KG2B
Read aloud

We had read aloud in our
school. Two children from other class
came and read story for us. We
enjoyed a lot.

We collectively decided to make a boat. First we drew a boat. We use some materials, egg cret, Straw, glass, Small trap, Color paper, top. From that materials we made a boat. We took a Egg cret top of it we put a Fly. We tested the boat in the water it sank into the water because egg cret was absorbent. So we decided to use plastic cret. because it is water proof.
